MEMORANDUM

To: Mr. Ken Wingate, Chairman, and Members, Commission on Higher Education

From: Dr. Bettie Rose Horne, Chair, and Members, Committee on Academic Affairs and Licensing

Informational Report on Licensing Activities for Degree-Granting Institutions FY 2007- 2008

Background

At the September 4, 2008, meeting of the Committee on Academic Affairs and Licensing the *Information Report on Approved and Terminated Programs for Public Institutions for Fiscal Year 2007-2008* was reviewed and approved. At that same meeting the Committee requested that the staff report similar information on nonpublic postsecondary institutions licensed by the Commission. In response to the Committee's request, this report has been prepared for the Committee's information only. The information found in the tables of the Report covers the period from July 1, 2007 through June 30, 2008.

Under South Carolina law, all licenses for higher education institutions operating in the state are program- and site-specific. Thus, an institution must first be approved by the Commission to operate at a given site for the offering of a given program or programs. Under the following conditions an institution which is already licensed must apply for an amendment to its license when:

- It seeks to add a field or major not previously offered if that field/major constitutes more than 18 semester hours of credit.
- Academic requirements in an existing field or major are changed which constitute 25% or more of that field or major as originally licensed.

- Cumulative changes in the course of a calendar year equal or exceed 25% of the field or major as originally licensed.

Requests for initial licensure of new degree-granting institutions, amendments to existing licenses to add degree programs at in-state institutions, and amendments to existing licenses to add in-state sites to licensed institutions are all evaluated by the licensing staff in the Division of Academic Affairs. Staff then refers these requests to the Committee on Academic Affairs with an appropriate recommendation for action.

For changes of less consequence than those described in the two paragraphs immediately above, a licensed institution meets the requirements of the law by simply notifying the Commission in writing. Such minor changes include institutional changes in:

- Course requirements in an existing program which constitute less than 25% of the program's academic requirements in a year.
- A "concentration" within a program of study which constitutes 18 credit hours or less.
- A name for an existing program of study.
- The mode of delivery for an existing program of study.

This report has been organized to reflect comprehensively the staff work required to assure that the law is applied appropriately in the licensing of qualified institutions seeking to offer academic programs of higher education within the state of South Carolina. Listed herein are the following sections:

- I. Approval of Initial Requests for Licenses
- II. Amendments to Existing Licenses to Add New Programs
- III. Amendments to Existing License to Add New Site

Included herein are the following tables:
