Lake Paul Wallace Building Update – Mr. Munnerlyn inquired if DNR has made any indication if they will make any repairs to the building since they own the facility. Mr. Kimrey, County Administrator stated that the County is looking for sources of funds for that building. Mr. Kimrey stated that the DNR will not say that the lake is safe and that no response was given in regards to alligators occupying the Lake. Mr. Kimrey further stated that people who are certified have been applying for the lifeguard position. Dr. Prince inquired about the \$98,000 that is being held by DNR and if it is used for water safety. Mr. Kimrey stated that the County has to do the water safety and that no samples have been done as of yet. Dr. Prince asked Mr. Kimrey to follow up on what the money is used for because the money has not been spent in 5 years.

Mr. Munnerlyn stated that the Council has had two meetings and that a deadline is needed in order to bring this to a close. Mr. Kimrey stated that we can authorize money spent on the building or we can authorize County funds. Mr. Munnerlyn inquired about the cost of repairing the roof on the building. Mr. Kimrey stated that the cost of repairing the roof on

the building was \$3,300. Mr. Munnerlyn stated that he hated to see the County take on the financial responsibility of funding a State-owned facility. Dr. Prince stated that she was not comfortable in moving forward because DHEC is sitting on \$98,000.00 and they have not done any maintenance.

Dr. Prince further stated that the County needs to know exactly what that money can be used for because the County is in our budget process and we are having a struggle trying to maintain non-funded mandates and the County should not add anything else upon its citizens. Mr. Steen stated that if we move forward we are not standing behind what we have done. Mr. Steen further stated that we all want to move forward, but the first thing we need to do is to get water samples because if we cannot swim than it does not make any sense to spend any money on the bill. Mr. Munnerlyn stated that he disagreed because Marlboro County should also have the same priority as other state parks like Cheraw. Mr. Munnerlyn stated that if the County would like to provide swimming then the County needs to setup a meeting with DNR. The County does not need to stop our cooperation with the State because of other issues that are going on. Mr. Munnerlyn advised to Mr. Kimrey, County Administrator that an answer is needed within 10 days.
