Lily,

It was a pleasure speaking with you earlier today regarding your agency's upcoming VoIP Migration. Please see the attached quote for two (2) 24-Port Power Over Ethernet Switches that will replace the current telephone equipment that will be phased out during this transition. The total estimated one-time purchase cost for these switches is \$3,706.20 and they will need to be procured by the Office of the Lieutenant Governor prior to the migration. Please have the devices shipped to the following:

Division of Technology Operations

Attn: Myron Brown

4430 Broad River Road

Columbia, SC 29210

Also, please be aware of the following reoccurring costs for the maintenance and management of the two switches:

- Two (2) Tier 1 8x5xNBD Switches (\$56.00 per month/per switch) = \$112.00 monthly / \$1,344.00 annually

Please let me know if you have any additional questions or if I can provide further assistance.

Thanks,

Kristoffer Pluss
