Scotts, Michigan 49088

Dear Governor Haley,

My name is Faith, I am in fifth grade and live in Michigan. I am writing this, because of a special request I have. My class has been writing reports on the fifty states. I got to learn about South Carolina. Now that our reports are done, we are hoping for some extra information or post cards or anything that will tell me more about the great state.

I have heard so much about South Carolina but I have never been! I would love to go someday and see Charleston and Fort Sumter Monument and the Lower White water falls! And I would love to see the Angel Oak tree and the Sassafras mountains! I can't believe the the first shots of the revolutionary war were fired at Fort Sumter!

I love my own state, Michigan is great, we are called the great lake state, because of our five great lakes! Lake Michigan is about 45 minutes from my house, it's very big, but puny to the Atlantic ocean, but it's home! Michigan produces many cherries and blueberries! We are also known for manufacturing many cars!

I have never gotten the chance to go to the beautiful palmetto state, but if I ever do, I'll be there in no time!

Sincerely
Faith Smith
