

Dear Governor Nikki Haley,

2/22/15

My name is Anthony Jeffcoat, I am being detained at D.C. for an ongoing investigation of murder, Also the charge of murder. I am very concerned for me and others here and am afraid we're not going to get our "due process of law", according to the way I believe we should.

For example I ask for a lawyer when arrested, I was told I could have one after I gave a statement. Also I have an public defender who is writing a letter demanding me counsel. I've tried to get him to file motions for me such as "A Fast and speedy trial" and he flat out tells me no. Maybe I'm a little confused about what the duty of an Attorney is or there something not cool here. As I being presumptuous or do I have any rights as a citizen of South Carolina. If so then presumptuousness runs deep here in D.C. because I know of at least 40 cases here that feel the same way.

2/22/15

Anyway I just thought I would
write and plead for some help
down here. I had hoped for better
conduct out of our judicial system
but all I get out of it is that
the law can break the law or
bypass the laws of South Carolina
as long as they are the law or
employed by the law keepers.

Anyway maybe I should say
nothing but I had to try for the
more women I see not getting
a fair shake around here. I wish the
state attorney would look into at least
a few of the accused cases here at LSC. Co
Det. Case. I still profess my innocence
in this way & may God Bless All!

Anthony J. Self

P.S. please reply

I happen to feel I'm innocent of the charge of murder due to certain "stand your ground rules". Fact is there is nothing in my case that suggest I committed such a crime.

Also I have looked into other case files here and feel some in jail here are way over due, to be heard in court. In fact way overdue. Which brings me to the next point. I feel as though is a defendant does not plan out his needs to sit a little longer than he can bare to stand. But this would be a form of coercion a person to sign a confession while holding him/her under investigation. Or Plan some thing.

Anyway it seems the lawyers are taking too long to work on inmates cases, and that they are turning in a bill for doing nothing. In fact it is my opinion our state has been here for years and for three and so on without seeing or speaking with their public defenders. I hope they are not getting paid for that.
