Subject: 9 critters that climate change is impacting: #ActOnClimate

As temperatures rise, sea ice melts and wildfires burn longer, it's having a dramatic effect on not only our ecosystems but also wildlife. Here are [9 species that are already being impacted by climate change](#). If we don't act on climate now, this list is just the tip of the iceberg of what we can expect to see in the years to come.

Have questions about what climate change is doing to wildlife? Join us for a [Twitter chat](#) on **Wednesday, November 18, at 1 pm ET** . Submit your questions on [Twitter](#) or [Facebook](#) using [#askInterior](#) or email them to us at newmedia@ios.doi.gov.
