---

## **Please read this letter from Jim Roquemore, our CEO**

To our Valued Customers:

Several years ago we started our Super-Sod Trees nursery to offer tree and shrub products that we felt would complement our sod products and provide our customers with a more "one stop shopping" opportunity. Our Nursery Manager, Scott Terry, built a significant nursery operation and through the years, with Brenda and the rest of his team, has done a great job of producing a wide variety of excellent products for our customers. As active as our nursery operation has been, however, we have recently made the decision to divest ourselves of some of the smaller parts of our operations and place a more complete emphasis on sod and seed production. With this goal in mind we will begin immediately to phase out our Super-Sod Trees division. This phase out will occur over the next 6 to 12 months. During this time we will continue to sell our existing inventory until it is depleted, offering discounts on many items along the way.

We appreciate the tree and shrub business you have honored us with through the years, and we hope that we can continue to help supply your needs through the next few months as we wind down nursery operations. We are announcing this phase out now so you won't be caught without a supplier when our nursery operations finally do end. We wanted to give you plenty of time to find another supplier, and if we can help with your search we'll be happy to recommend some other

quality producers.

Thank you again for your business and your friendship through the years. As we now concentrate more on our sod and seed operations we are broadening our lineup of top quality turfgrasses especially in the Zoysia and Bermuda families. This will give you more choices to better meet the turfgrass needs of your customers. We'll keep you posted as these new products come available. We think you're really going to like them!

Kindest Regards,

Jim Roquemore, CEO  
Patten Seed Company/Super-Sod
