Yes, the proc request is in – but correspondence does proc requests based on date requested for – and it's been explained, just want an answer. I'll follow-up on that end. I'll hold off on meeting due to budget prep/schedule.

Wasn't aware of the resolution request. Did they reach out to Rob on that already, or has the ask come in through another vector?

I've already met w/SCBIO and can do so again if there's something substantive to discuss. If they just want a resolution, that shouldn't be necessary, though. I'm going to spend October in budget meetings.

Who would be the appropriate contact for the meeting request?

Thanks,
Leigh

Leigh,

I have a couple of questions for you: I have my client, SCBIO, asking me the progress the Governor's Office has made on whether Governor Haley can provide a proclamation for Personalized Medicine Day (see handout attached). So, any progress? Would it help if I talked to those making this decision directly (don't want to step on your toes and want to be a help, not a pester)?

Also, is there someone in the Governor's Office that we can talk to about the importance of personalized medicine (e.g. Christian Saura)? SCBIO would like to discuss with him (or someone) how personalized medicine significantly lowers health care costs and why SCBIO members think it is important.

You can read about Gov. Deal proclaiming GA Personalized Medicine Day by clicking here: http://www.personalizedmedicinecoalition.org/communications/press-releases/2011_9_1

Thanks Leigh!
