---

Christian,

Thank you so much for providing your insights and wisdom at our meeting in Charlotte with North Carolina officials. It was a pleasure to meet you.

As we move forward with crafting a Pay For Success program in NC, we will look closely at opportunities to interact with federal Medicaid officials. I would be grateful for any insights that you have about this endeavor and any updates you could provide me about the progress you make in interacting with them.

I attach a copy of a report about the impact of our brief universal nurse home visiting program in Durham.

Thanks again.

Sincerely,

Ken
