Subject: Refugees

Governor Haley,

Now is the time for thinking and acting with your head NOT your heart!! Let "Remember Paris" be the rallying cry just like "Remember the Alamo", for the mass introduction of these single male refugees will be our "Alamo". These particular refugees have NO intentions of assimilating into our culture, they are looking to destroy us from within, DO NOT be fooled or be afraid of being labeled by the progressive, liberal left!! They are using our good hearts, beliefs and legal system to achieve their goal of total destruction. THIS is the beginning of the next crusades, will we have ANY leaders stand and fight to protect our way of life????

We can allow immigrants into our country but let's do it the legal way that has always worked not by "executive order".

Refuse the resettlement of these refugees in our state NOW!!

Sincerely,

Deborah Summey
