---

She is not in a position at Outlet Pointe. She is just like Hattie and Youtha. Their positions are department managers at Headquarters , and we have been without them for over two years. I understand your dilemma. However, I can't move Diane out of that position. I think that she will be used in the Quality Unit, and I am trying to post positions for those jobs now.

If Diane is going to be at Outlet Point for an undetermined amount of time, do we not need to transfer her out of the Camden office so that we can hire a manager there? She has been there for more than 2 years and the office is suffering because of this. I don't doubt that she is needed there, but... other branch managers were moved so that a new manager could be hired. What gives with this?

Dianne informed me that she would not be returning to her office as planned this week. With the staffing issues in the Camden Office I feel that she needs to return there as soon as possible. Can you let me know when she might be released from Outlet Point.
