Derrek,

Here is a quote from the governor regarding SRS'65<sup>th</sup> anniversary, please let me know you receive it. Thanks again for your patients this week.

Quote from Governor Nikki Haley, "Our partnership with Savannah River Site means jobs for the Aiken area, and for the entire state, and we celebrate this milestone with everyone in the SRS family. The highly skilled workforce at SRS has given our state another reason to be proud, and they know that when the feds threaten our jobs and rich natural resources or fail to keep promises, we're going to get loud because we have their back."
