The Honorable Nikki R. Haley  
Office of the Governor  
1205 Pendleton Street  
Columbia, South Carolina 29201

Dear Governor Haley:

I am writing to you with the hope that you can help me clear my record. It is holding me back from getting a great job at a great company to support my family. Also, with three children, I still have this hanging over my head.

In 2005, a friend and I met a couple of girls online who live in Lexington. At that time, I was 20 years old and I think my friend was too. The girls said they were going to USC and had fake student ID cards. My friend reserved a hotel room for us in Lexington. I found out that the girl I had sex with was only sixteen and my friend was having sex with a thirteen year old. The thirteen year old girl's parents found out and turned us over to authorities. We turned ourselves in on 4/16/2005. The father of the girl I was with did not want me charged with anything because his daughter had lied and used the fake ID. But, since the other girl was thirteen, everyone was involved according to the authorities. My friend ended up in prison. I don't have any connections with him anymore. I spent one night in jail in Lexington and was bonded out. I have not had any other criminal situations since this happened. It taught me a lesson; however, it is still restricting my life now. Any help you can give to clear my record will be greatly appreciated.

The description of charges, etc. is listed below:
