Subject: Former Client Outreach - New Developments - Time to Chat?

Hi,

I am emailing you because you were one of my former clients.

I would love to reintroduce you to the service, and outline some of our latest developments.

We still have the largest capture network in the Country, we are still completely unlimited, and our retail product is still the gold standard in broadcast monitoring.

We are also going to be expanding our product offerings to include Logo Detection, Visual Search, and Audio Fingerprinting.

Please let me know if you would be interested in learning more. A link to my calendar can be found here:

<https://meet.ci/tveyesmatt>

I look forward to reconnecting, and hopefully working together again.

Best,

Matt
