

March 21, 2016

Dear Gov. Haley,

This article was in the Beaufort Gazette today. If these facts are correct, we are really throwing "good money after bad."

If we can afford to pay out \$40 million for claims, it seems urgent that we get our roads fixed and stop this ~~bleeding~~ bleeding of our state's money.

I can't understand why we aren't going after this problem with all our might. I see no fiscal responsibility going on here.

Sincerely,

B.J. Woods
