---

Rick,

Beth Parks called and said that you again asked if we had taken any vehicle immobilization suspension action on any vehicles.

As we previously indicated, we have not suspended any vehicles through DUI immobilization. We did receive 128 affidavits from the courts, but more than two-thirds of those did not contain vehicle information that we could use to suspend the vehicle license. As we indicated, since we knew that we were not getting all of the information, we needed to change our processing.

Our current process, which will be implemented by the end of the year, will allow us to automatically suspend the vehicles registered to the persons convicted of the subject offenses when the conviction is added to the driver license record and the driver license suspension becomes effective. The offender can then apply for any exemptions that may apply.
