Subject: AP inquiry/flag-lowering days

---

Hi, Chaney. I'm an AP reporter in New York, and I'm trying to gather some info from all states about when their governors ordered flags to half-staff last year (calendar 2015), and I was hoping you could help me nail that down. I'm just looking for a rundown of:

- When the governor called for lowering flags, and in each instance, for how long;
- Who or what was being memorialized;
- In each case, did the order involve both U.S. and state flags, and was it at all state properties or more limited (only office buildings or a certain department's facilities, for instance)?

Might this be doable by May 3?

Best,
