Governor,

You asked a few days ago about some summary information regarding DOT's expenditures and budget and we provided you a few summary tables. Attached is a report that I have been working with the agency on over the past year to address some of Chairman White's concerns about the agency's transparency and ability to explain its programs to members. It's a great example of the agency's challenges in responding to this issue but also a great example of how we have been responsive to the committee's needs.

The report is a little cumbersome, but fairly detailed; the first page is a statewide summary and the rest of the report is just a breakdown by counties and districts. Let me know if you want more on this.

Josh
