**Subject:** Keep our military strong ~ Website email from Judith Mixson

---

Lt. Governor Bryant, Please keep our military a strong , purposeful unit. My family is and has been military minded for decades. My deceased love ones would be ashamed at the downfall of morals in the military family. They were men who fought and worked hard to raise their families to love God and country. Let's continue to support only what is morally correct and good. The confused gender is just that ,and will not be trust worthy in any part of our society if they can't accept what has been naturally given to them. Let men be men and women be ladies who love their families and the God who made them. I am thankful for my country and proud of those who stand for what is right. Judith Mixson
