Glenn Beck discusses details!

Now we have [the] beginning of the truth on Benghazi. Five days into the Benghazi scandal, when no one was saying anything, I presented a theory...I told you that [Ambassador Stevens] was involved in running guns, and he was running guns to al-Qaeda in Libya, and he was running guns through Turkey into Syria. And whether it was a deal that went bad, I don't know, but that's what happened. And the White House knew...And while everyone else was arguing about whether it was a videotape or not, we were furthering the story.

Today we have evidence that is staggering. We now have a memo posted [at] TheBlaze...to the White House two hours after the attacks began. Last night on the TV show I laid it out again...exactly what happened, when. At 1:00 <<https://www.youtube.com/watch?v=2TJlqpyOCqc#>>, or 12:54 <<https://www.youtube.com/watch?v=2TJlqpyOCqc#>> in the afternoon on September 11, the White House was warned that somebody was watching the Benghazi safe house-- and so you know, do not let any member of the press get away with calling this an embassy safe house. It is not. It was a CIA safe house. Now why, in the most dangerous place in one of the most dangerous parts of the world, on Sept. 11...why would he be at a CIA safe house? ... We now know he was having dinner with the general counsel of Turkey. [Emphasis added]
