**Subject:** Fw: Presidential Eligibility Requirements-Part 2

*Previously, I wrote that Kapiolani Medical Center in Hawaii, which Barack Obama claimed was his birth hospital, has no record of his birth there. Also, the Governor of Hawaii, Neil Abercrombie, personally went to that hospital, believing he would easily obtain a copy of Obama's original birth certificate but came home empty-handed which he publically admitted. The only person left who Obama now uses to confirm his Hawaiian birth is himself! That is why he did not respond to Army Lt. Colonel Terrence Lakin's two letters to him, which simply asked for proof of his Presidential eligibility since more and more people were challenging his legitimacy. Obama's silence caused the Colonel to suffer through a disgraceful Army trial at which he was forbidden to introduce evidence which might embarrass Obama! So much for truth and fairness. Is there any wonder the Colonel received a dishonorable discharge? Eighteen years of faithful service to our Country wiped out by a mock trial, or should I say "by a mock president"?*

*Obama, rather than admit that he did not have a valid birth certificate (namely a "Certificate of Live Birth") used what he knew to be an ineligible and fraudulent "Certification of Live Birth" for two years whenever challenged. In so doing, he saved his career at the cost of Colonel Lakin's and he introduced chaos into America.*

*Globe Magazine offered Obama \$100,000 to help minority students who desperately sought financial school aid, a justified issue which Obama repeatedly had boasted of as dear to his heart. All Globe needed was that he produced a valid Hawaiian "Certificate of Live Birth", examined by experts for verification of his legitimacy. Imagine....\$100,000 for simply confirming his presidential eligibility. A simple request yet Obama ignored their offer, and, in so doing, dashed the students hopes, just as he had ignored Colonel's request for the*

same proof.

Then, along came an offer from Donald Trump-yes, that Donald Trump, of five million dollars (\$5,000,000) which could help the students, with the same stipulation-simply produce a valid birth certificate. Sadly, Mr. Trump received the same response which the others had received....NONE.

A second offer from Mr. Trump went to Obama, this time in the amount of (hold on!) fifty million dollars (\$50,000,000), with the same condition: produce a valid Certificate of Live Birth (confirmed as legitimate by experts); we are talking about fifty million dollars for a document which would help unite our Country and benefit our struggling students. Again, Obama didn't even respond to Mr. Trump's offer. Incidentally, I guess the Major Media's ink supply ran dry before they could print Mr. Trump's fantastic offer since I didn't see the article in the papers or on TV; Oh well, it was only \$50,000,000. I do believe, however, had the students nationwide became aware of this offer they might have stormed the White House and demanded that Obama strongly reconsider the wisdom of his silence. After all, what could he lose by accepting such a fabulous gift so dear to his heart? The answer....EVERYTHING, from the White House to his personal freedom! Remember, his side of the deal was to provide a valid, verified document which he obviously didn't have. For lack of this document his kingdom would have been lost. His train of lies had run out of fuel. How ironic: of all Obama's deceptive practices the one which saved him up to this time was SILENCE....his.
