Made a few changes to these two paragraphs:

The goal is to serve as many citizens as possible. SCDRO intends to repair or replace approximately 1,500 homes affected by the October 2015 Storm. The program is designed to assist Low to Moderate income households and serve South Carolina's most vulnerable population. The highest priority will be given to households with documented damage and homeowners who are 65 years old or older, persons with documented disabilities, or households with children five years old or younger. The October 2015 Storm Recovery program focuses on the repair or replacement of homes for the most at risk citizens that do not have the resources to repair or rebuild their homes.

Citizens who contacted 211 and provided information to Hearts and Hands Disaster Recovery will need to reapply for assistance. Citizens applying for assistance should prepare by collecting the correct documents before visiting the intake center. Finding the required documents can be difficult after a devastating event. The SCDRO has a list of acceptable documents on their website.

Rob Godfrey
Office of Gov. Nikki Haley
