

President Barack Obama
Attorney General Eric Holder

I am Asha Lane Gibson.

I am originally from Dillon, S.C. My current resident is Greenville, S.C. I greatly appreciate you having time to review these documents. These documents are my evidence to verify that I am being used as several government projects such as, Human Radiation Experiment, Electronic Harassment, Electronic Voyeurism, all are without my consent or knowledge. This is an ongoing basis in my daily activities.
(24/365)

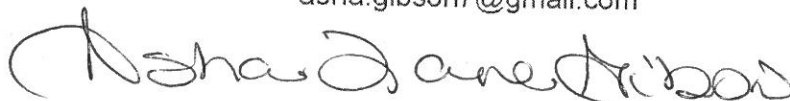

I contacted Melinda Kidder at Columbia Investigation, Columbia, Missouri to perform a radio frequency body scan. My daughter and I traveled to Columbia, Missouri to receive the scan on December 4, 2013. Dr. Hildegard Staninger at Intergrative Industrial Toxicologist perform my test to verify devices, technology and who are involved. Dr. Larry Rawdy perform the Asyra testing to determine the chemicals and heavy metals that are being used against me to harm my body. I contacted Mr. William J. Taylor at William J. Taylor Agency along with Mr. Gail Johnson, PFE through Mr. James Walbert. They arrived at my resident to find the frequency that were around at the time of the visit. I did explain to both of them I don't know why I am being illegally surveillance and I don't know why someone would be harming my body ongoing.

I sent letters to Clinton Foundation asking Former President William "Bill" Clinton assistance in procedures to pass the law in South Carolina and to inform him that Human Radiation Experiment still exists in our state. I didn't receive any response from the foundation. I contacted Governor Rick Snyder office requesting information on the procedures to pass the law in South Carolina, "Electronic Harassment, Life In Prison " They advised me to contact the Senators and Representatives in South Carolina, ask them to contact their office. I did, as a result no response of anyone contacting Governor Rick Snyder office.

I sent Michigan State Police Headquarters a copy of my documents with information on this situation asking "What are the procedures in prosecuting the individuals for electronic harassment?" I gave Michigan State Police Headquarters information on who I tried to file a report with. They informed me who they would contact and for me to contact the local FBI. I did have a meeting with him again explaining how I received more information and discuss how to catch the individuals of the agencies involved. I have completed several FOIA letters and contacted FCC, DOE, DOD, DOJ, CIA, NAVY, NSA, ATF, SLED, and U.S. Marshall with the information I have provided to you.

I am contacting you in regards to ask if you could PLEASE assist in helping Greenville, S.C. FBI EXPEDITE the investigation.

Thanks In Advance,
Asha Lane Gibson

Dear President Barack Obama, I hope that all is well on today. I have previously sent on January 14, 2015 a copy of my file. I haven't heard from you or the Executive Office. I sent Former Attorney General Eric Holder the same file. I was asked to send in more information. I did as I was asked to. The Former Attorney General Eric Holder sent my file to The Civil Rights Division. I have sent the Governor of South Carolina and Attorney General of South Carolina information informing them of the invasive crime that is ongoing daily.

I am asking you and The Executive Office to assist in passing the same law as Michigan State has "Electronic Harassment, Life In Prison" for South Carolina. Could you help EXPEDITE the information that I am awaiting for through the different Agencies and Departments. There is a Federal crime being committed daily 24/7. PLEASE assist in prosecuting the individuals in this crime.

Thanks In Advance,

Dear Asha:

Thank you for contacting me. I appreciate the opportunity to hear from you.

As a United States Senator, my jurisdiction is limited to the federal level. I encourage you to contact your state legislators regarding this issue. Please visit www.sc.gov for more information about the South Carolina General Assembly and to locate your state representatives' contact information.

My job as your United States Senator is to represent your interests. While I cannot guarantee we will see eye-to-eye on every issue, I can guarantee you I will give your thoughts and opinions the consideration they deserve. Hearing directly from you about the problems facing our nation helps me better serve constituents like you, and the people of South Carolina as a whole. I hope you will always feel free to pick up the phone, write, or email about this, or any other issue, that comes before the Senate.

If you are online, I would also encourage you to visit my website — <http://lgraham.senate.gov> — as it will have information on the most recent activities before the Senate. While there you can also sign up for our e-mail newsletter, Facebook, Twitter, and YouTube pages which will provide the latest information, and my up-to-the-minute views on the major issues facing our nation.

Thank you again for taking time from your busy day to contact my office. I look forward to hearing from you again in the future and truly appreciate the opportunity to represent your interests in the United States Senate.

Sincerely,

Dear President Bill Clinton,

I am contacting you in regards to receive any information and assistance for the harm that is being committed daily by Human Radiation experiment. I have contacted the Governor of Michigan State asking them to assist myself and others by helping South Carolina Representatives and Senators to pass the same law, "Electronic Harassment, Life in Prison". I have followed the instructions on how to ask South Carolina to contact the Governor of Michigan State. I was informed by their office to ask South Carolina to contact them so they can give them information on the procedure they did in order to pass this law. There are several other people along with myself who are being Remote Neural Monitor and Brain Stimulation Surveillance. Please help me pass this law in our state. We need your assistance in having the ones committing this federal crime where they need to be. Thanks In Advance, I Look Forward To Hearing From You Soon.

Dear Ms. Gibson:

Thank you for contacting me to express your idea regarding an Electronic Harrassment law in South Carolina. It is an honor to serve you in the United States Senate, and I certainly appreciate your perspective on this critical issue.

You can be assured that as your Senator, I welcome and value your opinions and hope that you will provide my office with your thoughts and suggestions on legislative issues. Unfortunately, my office does not have jurisdiction over matters beyond the scope of the legislative branch. Since the Constitution grants state and local governments the right of self-governance on most local matters, and I recommend that you contact your state legislators regarding this issue at scstatehouse.gov/legislatorssearch.php.

Again, thank you for sharing your perspective with me; I hope that you will continue to do so in the future. If I can ever be of assistance, please do not hesitate to contact me or a member of my staff.

For more information, please visit my website at www.scott.senate.gov and subscribe to my monthly e-newsletter. I also encourage you to follow me on Facebook: www.facebook.com/SenatorTimScott and Twitter: www.twitter.com/SenatorTimScott for daily updates.

I have previously contacted Senators and Representatives of South Carolina in regards to "ELECTRONIC HARASSMENT,LIFE IN PRISON" law as Michigan State. Since I have contacted you last, I have sent Michigan State Police Headquarters information asking them what are the procedures in individuals being prosecuted in the Federal crime that is being committed ongoing in South Carolina. I am asking you to please contact Governor Rick Snyder to find out the procedures in passing the same law in South Carolina. I am in contact with the Office of Governor Rick Snyder to ask if his office could send a document stating that I have been contacting his office to receive the information. I have sent a letter to Former President William "Bill" Clinton Foundation asking for assistant for South Carolina to pass this law and bring the attention to American Citizens that Human Radiation Experiment is still ongoing in South Carolina. Could you please take the time out of your schedule to review the laws of Michigan and Human Radiation Experiment without consent or knowledge of the victims in South Carolina. I appreciate your time . I look forward to your response soon.

Dear Governor Nikki Haley and Attorney General Alan Wilson, there are several things that are going on in the state of South Carolina that I am bringing to your immediate attention, just as I brought it to Former Attorney General Eric Holder and Governor Rick Snyder. For several years there has been Government or contractors of the Government that have been using me for Human Radiation Experiment without my consent nor knowledge.

I contacted Governor Rick Snyder's office asking his office what are the procedures to pass the

same law "Electronic Harassment, Life In Prison?". Governor Snyder's office advised me to contact my Senators and Representatives, ask them to contact Governor Rick Snyder's office. I sent information to Senator Lindsey Graham, Senator Timothy E. "Tim" Scott, Representative Trey Gowdy, State Senator Karl Allen, State Representative Leola C. Robinson-Simpson, I asked them to contact Governor Rick Snyder's office. I called Governor Rick Snyder's office asking them did anyone from South Carolina contact their office, as a result they said no one called.

I am informing you that this is going on in South Carolina. I have informed Michigan State Law Enforcement with my file asking them what are their procedures for prosecuting individuals that are committing this crime daily? He is located in another state he was not able to assist me in the procedures. I asked him to contact Greenville, South Carolina FBI Special Agent Tom Carver. I have collected enough evidence to locate and prosecute the individuals of the invasive crime that is being committed daily. I have sent my entire file to President Barack Obama and Attorney General Eric Holder. Attorney General Eric Holder's office asked me for more information.

I responded and his office sent my file to The Civil Rights Division. I contacted former President William "Bill" Clinton Foundation to inform him that Human Radiation Experiment is continuously going on in my surroundings daily. The information that I have provided to different Agencies and Departments should have arrested someone by now.

I am asking you to PLEASE contact Governor Rick Snyder's office to receive the information his office has in passing the same law in South Carolina and what are the procedures to prosecute the individuals that are committing this crime daily.

The Honorable
South Carolina House of Representatives

Proposed Bill

1. Electronic Harassment, Life in Prison
2. Ban All Space Based Weapons from South Carolina

Thank you for taking the time to review the information for the Proposed Bill. I recently sent The Honorable Governor Nikki R. Haley information in reference to the Proposed Bill. I spoke with Ms. Cooper on August 10, 2015. I was advised to inform the House of Representatives. I have enclosed information to inform you of what is going on in South Carolina. There are several victims Electronic Harassment that consist of someone using the Government's equipment to harm American Citizens by Directed Energy Weapons. After the weapons are directed at the (Target Victim) person(s) without their consent nor knowledge. The Electromagnetic has increased throughout the body causing the radio frequency to come from the body that is not of the earth. They will use the person(s) body to assault, torture, slow kill. It will cause the victim to have symptoms of multiple problems throughout the body at the same time.

The radio frequency that are emitting from the body are connected to particular satellites and supercomputers. The targeted victim would be illegally surveillance by the electronics. The radio frequency will continue to change in each major body parts. THIS IS NOT A MENTAL ISSUE THESE ARE

FEDERAL CRIMES. If the targeted victim explains the symptoms to authority or doctors the symptoms they would diagnose them as Schizophrenia and order them to a mental hospital or Psychiatrist for evaluation.

I am asking to appoint a Federal Bureau Investigation team to thoroughly investigate each victim's case in South Carolina.

I am asking to remove all connection to those satellites the radio frequency are connected to.

I am asking for immediate prosecution to all that participated in the Federal Crime from the beginning throughout the invasive crime.

I am asking to please inform me of the Proposed Bill meeting. I am asking if I could attend.

Enclosed are testimonies from South Carolina victims and one North Carolina. There are several victims would not complete a testimony in fear they would lose their jobs and their family members do not know. I informed a Special Agent of the crime. His response was they don't have the proper tools to do the search. If you have any additional question please contact Dr. Hildegard Staninger 323-466-2599 at Industrial Toxicologist, Melinda Kidder 573-673-2485 at Columbia Investigation, Derrick Robinson 513-568-1635, President for Freedom From Covert Harassment and Surveillance.

I greatly appreciate your time and please understand that this crime is ongoing. My case is in United States

Court of Appeal Fourth Circuit and I am awaiting for information from The Criminal Section of Department of Justice.

I can say that I am investigating my own case. I Thank God, he has allowed me to receive the information that I have and help other victims with the information that I now know.

I am responding to the information that I received from The Civil Rights Division stating that after reviewing my file it wasn't a Civil Rights matter on Monday June 15, 2015 at 3:39 p.m. I was asked to contact MRU to ask for the information in writing and to ask why isn't it a Civil Rights matter? I called MRU/Karen , she said it is in the system that my file was sent back but didn't say why. The file would be reviewed again to see why it was sent back. I asked if I could submit information on explaining that it is a Civil Right matter and it's a Criminal matter.

Why is it a Civil Rights matter? My civil rights and human rights are being violated ongoing daily. I did not give any one permission to be their "Guinea Pig". They are using Government High Technology without my consent nor knowledge. It is also a Criminal matter, a Federal crime is being committed ongoing daily. I am requesting that my file is reviewed by the Criminal Section. I am asking that a team would take extra time in reviewing the file and the information that you don't understand please contact Dr. Hildegard Staninger 323-466-2599 or 415 ¾ N. Larchmont Blvd., Los Angeles, CA 90004 ; Melinda Kidder 573-673-2485 or 601 W. Worstell Ln., Columbia, MO 65202.

Those documents verified that I am being Mentally , Emotionally, Physically violated ongoing. I have medical records, toxicologist records, body scans to verify the domestic assaults ongoing daily without my consent nor knowledge. I have witnesses that will verify in any court of the damages and illegal surveillance. This is not mental these are Federal crimes being committed.

Dianne Ortiz was the first to seek civil damages under the Torture Victim Protection Act passed in 1992. She was awarded 5 million in damages. Michigan has a law “ Electronic Harassment, Life In Prison”. Please assist in collecting the information and prosecution. Pentagon report investigated lasers that put voices in your head

February 18, 2008 by Lisa Zyga weblog

JITC Video Distribution

Secure and Reliable Room Control Certified for Government & Military

○ ○

A recently unclassified report from the Pentagon from 1998 has revealed an investigation into using laser beams for a few intriguing potential methods of non-lethal torture. Some of the applications the report investigated include putting voices in people's heads, using lasers to trigger uncontrolled neuron firing, and slowly heating the human body to a point of feverish confusion - all from hundreds of meters away.

A US citizen requested access to the document, entitled "Bioeffects of Selected Non-Lethal Weapons," under the Freedom of Information Act a little over a year ago. There is no evidence that any of the technologies mentioned in the 10-year-old report have been developed since the time it was written.

The report explained several types of non-lethal laser applications, including microwave hearing, disrupted neural control, and microwave heating. For the first type, short pulses of RF energy (2450 MHz) can generate a pressure wave in solids and liquids. When exposed to pulsed RF energy, humans experience the immediate sensation of "microwave hearing" - sounds that may include buzzing, ticking, hissing, or knocking that originate within the head.

Studies with guinea pigs and cats suggest that the mechanism responsible for the phenomenon is thermoelastic expansion. Exposure to the RF pulses doesn't cause any permanent effects, as all effects cease almost immediately after exposure ceases. As the report explains, tuning microwave hearing could enable communicating with individuals from a distance of up to several hundred meters.

"The phenomenon is tunable in that the characteristic sounds and intensities of those sounds depend on the characteristics of the RF energy as delivered," the report explains. "Because the frequency of the sound heard is dependent on the pulse characteristics of the RF energy, it seems possible that this technology could be developed to the point where words could be transmitted to be heard like the spoken word, except that it could only be heard within a person's head. In one experiment, communication of the words from one to ten using 'speech modulated' microwave energy was successfully demonstrated. Microphones next to the person experiencing the voice could not pick up these sounds. Additional development of this would open up a wide range of possibilities."

The report predicts that communicating at longer distances would be possible with larger equipment, while shorter range signals could be generated with portable equipment. Putting voices in people's heads could cause what the

report calls "psychologically devastating" effects. The technology might even allow for communicating with an individual hostage surrounded by captors, although this would require "extreme directional specificity."

With another weapon, electromagnetic pulses could be used to disrupt the brain's functioning, although this technology was still in the theoretical stages at the time.

Under normal conditions, all brain structures function with specific rhythmic activity depending on incoming sensory information. Sometimes, the brain synchronizes neuronal activity in order to focus on a specific task, but the degree of neuronal synchronization is highly controlled. However, under certain conditions (such as physical stress or heat stroke), more areas of the brain can fire in a highly synchronized manner, and may begin firing uncontrollably.

The report describes a method for replicating this highly synchronized neuron firing across distances of several hundred meters. High-voltage (100 kV/m) electromagnetic pulses lasting for one nanosecond could trigger neurons to fire, disrupting the body's controlled firing activity. Short-term effects may include loss of consciousness, muscle spasms, muscle weakness, and seizures lasting for a couple minutes. These high-voltage pulsed sources, which would require an estimated frequency of 15 Hz, exist today.

Another form of non-lethal torture described in the report is microwave heating. By raising the temperature of the body to 41°C (105.8°F), humans can experience sensations such as memory loss and disorientation, and exhibit reduced aggression. According to the report, humans can survive temperatures up to 42°C (107.6°F), at which time prolonged exposure can result in permanent brain damage or death.

The microwave heating technique was tested on a Rhesus monkey, where a 225 MHz beam caused an increase in the animal's body temperature. Depending on the dosage level, the temperature increase occurred within a time of 15 to 30 minutes. After the beam was removed, the animal's body temperature decreased back to normal. The report suggests the technique could be useful for controlling crowds or in negotiations.

While the investigations reveal intriguing techniques for non-lethal torture, the report does not mention plans for carrying out specific experiments or studies in the future.

Dear Ms. Gibson:

This responds to your letter dated June 17, 2015, forwarded to us by the U.S. Attorney General, Loretta E. Lynch, for review and response. We apologize for our delay in responding to your letter. In your letter, you allege that the government has illegally used high level technology to conduct surveillance on you without your knowledge or consent.

The Criminal Section of the Civil Rights Division is responsible for enforcing federal criminal civil rights statutes. Much of our enforcement activity relates to the investigation and prosecution of deprivations of civil rights under color of law. These matters generally involve allegations of excessive physical force or sexual abuse by law enforcement officers.

We have carefully reviewed the information which you furnished. However, we have concluded that your complaint does not involve a prosecutable violation of federal criminal civil rights statutes. This is not a judgment on the truth or merit of your complaint; it is simply to inform you that this is not the type of case that this office could prosecute. Accordingly, we are unable to assist you.

Thank you for bringing this matter to our attention.

Sincerely,

Robert J. Moossy, Jr.
Section Chief

I am responding to your response. The information I provided does involve prosecutable violations of Federal Criminal Statutes. The Federal Crimes are committed daily ongoing. I sent you documents to verify the assaults to the entire body. The frequency numbers are being used without my consent nor knowledge. The frequency numbers are located with NTIA. Remote Neural Monitoring is part of NSA, Electronic Rape/Sexual Assault is ongoing with Directed Energy Weapons with the Military.

Human Radiation Experiment has been in the United States since 1944. In past years it was Human Plutonium, Ionizing Radiation, and Radioactive Contamination of the human body. In 1946-1958 it was U.S. Nuclear Testing on Marshall Islands. In 1994 The Advisory Committee on Human Radiation Experiment was established. The frequency numbers are connected to particular Government Satellite that allows the invaders to illegally surveillance all of my surroundings 24/7/365. I have contacted NTIA, NOAA, FCC. I am not in their files. I have appealed all decisions. I am asking everyone to search for illegal activities being committed daily.

My human rights are violated every second of the day. The technology they are using is harming my body. I have medical records, chemical/Asyra tests, toxicology tests, thermography test, radio frequency body scan and polygraph. It is a crime to illegally invade anyone's privacy. Voyeurism is a crime. I have provided you with

information to this crime. I am asking again to assign someone or a team to research the information I have previously provided. I look forward to receiving your response soon.

Thanks In Advance,

Assault by Electromagnetic (EM) weapons, or directed-energy weapons (DEW)

Electromagnetic (EM) weapons, or directed-energy weapons (DEW), we do not see, hear, taste, or smell, although we are grossly affected by them as citizens. They utilize the various frequencies of the electromagnetic spectrum to disable or kill the target. Among electromagnetic weapons are psychotronic weapons. These EM weapons interact with the nervous system of the targShort list of symptoms

- chilling of skin/ instant coldness
 - daytime discernible "microwave hot spots" on skull
- thermal heating
 - nighttime, severe night sweats
- intense itching
- sensation of electric current running through the body
- induced sleep
- hyperactive bladder
- deterioration of cognitive abilities
- jaw or tooth pain
- sleep deprivation
- severe disorientation while driving
- lesions on internal organs
- dream manipulation
- memory loss
- electroshocks
- tingling
- numbness

DEW Directed Energy Weapons Electronic Harassment Symptoms

Directed Energy Weapons from wikipedia.com

A directed-energy weapon (DEW) is a type of weapon that emits energy in an aimed direction without the means of a projectile. It transfers energy to a target for a desired effect. The energy can come in various forms: Electromagnetic radiation (typically lasers or masers). Particles with mass (particle beam weapons). Sound (sonic weaponry). Electromagnetic weapons are a type of directed energy weapons which use electromagnetic radiation to deliver heat, mechanical, or electrical energy to a target to cause pain or permanent damage. They can be used against humans, electronic equipment, and military targets generally, depending on the technology hen used against equipment, directed electromagnetic energy weapons can operate similarly to omnidirectional electromagnetic pulse (EMP) devices, by inducing destructive voltage within electronic wiring. The difference is that they are directional and can be focused on a specific target using a parabolic reflector. Faraday cages may be used to provide protection from most directed and undirected EMP effects. High-energy radio frequency weapons (HERF) or high-power radio frequency weapons (HPRF) use high intensity radio waves to disrupt electronics. High Power Microwave devices use microwave radiation, which has a shorter wavelength than radio. directed energy weapons. The equipment, based on microwave, infrasound, neuro science, biofeedback, and other technology, has the capability to administer a variety of effects when remotely directed at the victim either while inside their homes or away from their homes. headaches, laser-like burns, rashes, sharp pains that feel like electrical shocks, mood alteration, and neurological trauma. Use against humans Generally considered 'non-lethal weapons', electromagnetic weaponry do however pose health threats to humans. In fact, "non-lethal" weapons can be deadly". Some common bio-effects of electromagnetic or other non-lethal weapons include effects to the human central nervous system resulting in physical pain, difficulty breathing, vertigo, nausea, disorientation, or other systemic discomfort, as weapons not directly considered lethal can indeed cause cumulative damage to the human body. Short exposure to intense radiation can cause heart seizure and a wide range of physical disorders. silent, covert war the targeting of specific individuals These

devices are deliberately designed and used - so as not to leave evidence. Each victim has an individual story but also has a noted consistency in the abuse and the terrible health problems that affect all casualties of EMF/DEW irradiation. EMP, Pulse and Direct Energy weapons, contrary to the propaganda and lies are extremely lethal. These weapons are used to terrorize a targeted person over a period of time. These weapons come in the form of vibrations, which can be used to target a specific organ in the body causing scar tissue to form leading to the death of that organ. These weapons can cause heart attacks and strokes. There are approximately 100 plus vibrations that attack the heart. There are vibrations that cause panic attacks and sleep deprivation. There are vibrations which cause a targeted person to go mad and/or crazy, as well as many other capabilities. All that would show up in an autopsy is that the person died from natural causes.

What Are The Effects Of These Directed Energy Weapons?

It is well known and well documented that microwave and extremely low frequency (ELF) and Extremely low frequency sonic and electromagnetic frequencies can disorient and disrupt human functioning, cause memory loss and confusion. These directed energy weapons can cause nausea, ringing in the ears, fatigue, headaches, heart attacks, cancer, strokes, and a variety of other symptoms.

Symptoms Of Electronic Harassment and Radio Frequency Attack.

1st Stage Signs

feeling a shock as one drifts off to sleep, or seeing
 seeing lights as one drifts off to sleep.
 Unaccountable increased heart rate.
 Nervousness.
 Irritability.
 Aggravation reactions.
 Erection dysfunction.
 Compressing the vertebrae noted upon waking.
 Sensitivity to sound.
 Depression.
 Minor spasms and Charlie horses.
 Inability to concentrate.
 Loss of memory.
 Night sweats.
 Sensitive ear to touch.
 Upon waking finding that the muscles of the back are tingling as if electrified.
 Ringing in one or both ears and or hear tone bursts
 GERD (Difficulty in Swallowing)
 Arthritis.
 Eye Sight becomes blurred.

Teeth snap together when drowsy.
Loss of sleep.
Nails become wavy.
Water weight and cellulite accumulations on the upper thigh and buttocks from cellular fluids displaced generally from the head and upper body especially in women, where those fluids find ready redistribution in those areas.
Changes in the tone of the internal voice.
Waking up in extreme pain, and arthritis condition.
Spontaneous tearing without emotional thinking.
Mild pressure in the head, a cloudy feeling.
Increased need to urinate during the night.
Feeling puffs of air on the face and back, such may be a demodulation of energy on the skins surface.
Sensation that blood is trickling into localized areas of the brain and other parts of the body, this feeling is akin to the impression that these areas were devoid of blood.
Unaccountable increased heart rate just before drifting off to sleep causing the person to wake up.

2st Stage Signs

Burning sensation on the skin.
Loss of hair.
Feeling of temporary heating of the head. (demodulating RF effect)
Rashes.
Narcoleptic reactions, sleepiness.
Sleep only after exhaustion.
Virtual insomnia.
Miscarriage.
Gaunt face.
Facial wrinkles.
Losing skin turgor.
Hair breaks from rapid microwave heat on hair causing increase fracturing of hair shafts from expansion of water via humidity.
Loosing Control (unexplained anger)
Heating of body. (Body feeling as if it is being cooked)
Waking after sleep feeling as though you did not sleep, children's symptoms can manifest themselves as ADD and Hyperactivity
3rd Stage effects from exposure
Loss of coordination.
Accidents from sleeplessness.
Damage to eyesight.
Atrophy of the muscles.

Heart valve damage.
Loss of weight and/or weight gain.
Nausea.
Sensitivity to sound.
Decreased dexterity.
Seizure.
Choking.
Vivid dreams.
Lost time. (Alzheimer type symptoms)
Change of mood.
Heart Attack.
The personality becomes quiet, a lack of thought takes place.
Decrease in mental activity.
Limbs jerk typically as one is trying to sleep.
Weakness.
Lethargy or hyperactivity.
Forgetfulness.
Constipation.
4th Stage
Syndromes.
Disease.
Insanity.
Heart Attack.
Stroke.
Death.

I am gang stalked in Austin, Texas (unknown sources to start with, but more civilian involvement now) I am having a few physical problems indicating radiation.
My emails are monitored, phone tapped, wrong calls and much more.
Please contact me in austin. I do not know how.
