The Honorable Nikki R. Haley

Office of the Governor

1205 Pendleton Street

Columbia, South Carolina 29201

Dear Governor Haley

As a voting resident of South Carolina, I have a proposal to consider sharing with you. I think cars or trucks with any kind of muffler that makes the sounds from the throttle a lot louder should become illegal in South Carolina. It can make it harder for the driver behind them to see due to exhaust from the muffler. I am aware that in the driver's education booklet it states that someone cannot modify their vehicle with anything that will change the performance or appearance of the vehicle, yet people still use mufflers. Please consider this proposal to be addressed. Thank you for your time.

Sincerely,

A handwritten signature in black ink that reads "Mason Harwell". The signature is written in a cursive, slightly slanted style.

Mason Harwell
