Rob – hope all is great.

I'm reaching out with a booking request for Gov. Haley, for the ESPN/ABC podcast "Capital Games." I co-host with ESPN's Andy Katz, and we cover the intersection of sports and political topics. We've been covering HB2, just to your north, in light of the decisions by the NCAA and ACC to pull championship events.

Andy is reporting that there's an effort afoot to get NCAA men's first and second round games in Greenville, now that sites in NC are out. I know Gov. Haley has talked about not needing something like HB2 in South Carolina – we'd love to get that perspective on the show.

We'd be asking for about 10 minutes by phone on Thursday afternoon. Let me know if you're interested or intrigued, or if I can get you more information about the show.

Best,

Rick Klein  
Political Director
