Subject: RE: Point of contact for businesses

Debra,

When we lit up the counties, we included that information on your website, as required. My only concern is that a lot of our "champions" are business folks and I don't want them to get inundated with emails, especially since we didn't tell them that their information would be "out there". Can we discuss when you get a chance?

I'd like for us also to schedule a time to discuss the onboarding of 2nd round applicants and the look back for counting certificates as well as the updating of county goals.

Have a great weekend and I hope to talk to you soon.

EK

Subject: Point of contact for businesses

Hi Team SC!

I hope this note finds everyone well.

We had a very good meeting in Oregon and discussed some next steps that Elisabeth and James will share with you. We also shared during this meeting, that ACT is making a few updates to the website based on feedback from the Charleston meeting. One of those updates is adding functionality so that as businesses sign up we can include in the email message to them the *Point of Contact* in your state for businesses should they have additional questions or would like more information on your state initiative. So, it would be helpful if could send us the following information at your earliest opportunity:

Name, title, agency of POC for SC business supporting
POC Email address
POC Phone number

We will be back in touch to let you know when this functionality is live. And, of course, please let us know if you have any questions.

Regards, Debra
