Hello Governor Haley my name is Genora Lewis Profit, I am sending a message today, on behalf of my nephew. He is in jail in Florence County South Carolina he has been charged with attempted murder and the young man that he shot was his friend they were riding had a gun which should not have been in their possession the young man was accidentally shot and if he took him to the hospital and stayed with him, we pray for the young man and his family, he is in rehab in Columbia I think, I pray he has a full recovery. My nephew has been incarcerated since Father's Day 2016 the charges are attempted murder there were two other young men in the car that ran but the story they gave is the same, my nephew's story is the same he was denied bond we have no reason why the bond was denied it is going on six months and something needs to be done the solicitor or in the investigation the investigator he has not released a vehicle that belongs to my niece which was my deceased sister who passed in May of 2016 and it is her car and we try to get the car back but the investigator will not release the car, also today is his mother's birthday December 5, my sister and her husband have longevity on both of their jobs are well-known in the community she is a manager at tri-care Blue Cross Blue SC she's been there for at least 24 years his father has been at Food Lion stores for almost 30 years she is a minister and they have great standing in the community my nephew is not perfect I mean he is a boy has had a few ups and downs but today would be a great day to have him released on her birthday. The charges and the evidence do not add up they are false charges please if you can look into this in Florence County his name is Joshua Genord Eaddy thank you so very much.
