I know you're laid-up, so I'm taking a first crack...hoping you can weigh-in sometime later today/tonight, 'cause I know they have Go Fever and want to go to press. Thanks – hope you're feeling a little better.

1. Lottery – use their number, 'cause we never updated our book charts to reflect the Election Day money...we got the letter from BEA late and didn't make the switcheroo.
2. DHEC – yeah, the split's OK.
3. DNR – extra money...yeah, that's OK.
4. Prosecution Coordination Commission – I don't remember where we landed on this...having the extra money go to Office of Circuit Solicitors seems fine, but is that money really the pay raise allocation that PCC forgot to put on its own salary lines?
5. SLED – extra money...yeah, that's OK.

You mind taking a look at the health funding / tobacco figures, like they asked? Thanks.

Subject: Draft Gov's SCD

Christian and Josh,
Attached is the draft of the SCD. There are some areas highlighted with notes to the right that I will need feedback on and please take a close look at the Health Funding Provisos column (Tobacco Money). Also, please let me know if the descriptions work for you.

I'll continue you to review the document and will send you an update if any major changes are made prior to your final review.

Thanks,
Quentin
