Subject: Thank You

Attachments: [Lucien4thofJulyIslandPacketPhoto090213.pdf](#)

Hello Katherine,

I just wanted to send you a quick thank you note for your hospitality last night. It was a pleasure to see you again and to be able to discuss opportunities to work with you and Governor Haley. David Arnal and I really enjoyed the reception and being part of something special – you just have to love working with Nikki.

The Cherichella's house is just magnificent and they are truly special people too. "Haste ye Back" is just perfect.

I look forward to scheduling a short presentation on our patent with you soon and receiving feedback and support from Governor Haley.

Thanks again,

Warren

P.S. I just had to send you a picture of my son – already trying to run for office – getting all the free press he can.
