Subject: Irish Traveler Questions

Chaney,

There's a group of Irish Travelers in North Augusta who say DSS is taking their children and not giving them a reason why. They have called on the Governor to help them get 5 girls back from the states custody. They are saying they are being targeted and profiled.

Has the Governor received any of their calls/messages from people in North Augusta asking for her help?

Would she be willing to hear their concerns?

Has or does the Governor get involved in cases where people claim they are being profiled against?

Would she be willing to send over a statement?

Thanks,

Stefany Bornman
