

TO GOVERNOR Haley

FROM: Jane Craig

I am enclosing the obituary from our great-granddaughter's death in Greenville. I read with grief that you are supporting the DDS leader, Ms. Koller.

You have children so you should understand that all is not well in the DSS. Our granddaughter placed her precious 3 month-old Kellie Rynn in an approved day-care home. Obviously the "business" was not under the observation of this organization because our baby is dead and the day-care operator has been some time ago arrested. Why??? She had lied to DDS.

Her daughter was hiding in their basement with at least 12 children, a toddler was outside of the house alone and not only liquor but a gun was found in the house where there could have been a danger to the children who could walk.

When was DDS at this house to say that it was safe? My grand-daughter got a report from DDS that all was safe and obviously this was not investigated. - Greenville, S.C.

If this Ms. Koller is too sick to answer questions about the safety of our GREAT LOSS then she should stay home and put on permanent leave.

It seems that some employees from the Greenwood area were possibly scape-goats for the lack of investigating "red-flags". My concern is that my Kelley Rynn's death will be one of these and another family will lose a beautiful little girl who possibly would have been a blessing to the world - smart and well-loved.

Please do not turn your back on this crippled agency.
