Subject: Funding for farmers post-flood // McClatchy Newspapers

Rob, Chaney,

Sorry for the short notice, but I'm on deadline (2pm) writing about the situation of SC farmers after the flood.

A lot of them said they hope the governor will send some of the recent federal funding their way, if only the extra (I believe she requested \$140 million and they approved \$157 million). I know she's opposed to favoring one business sector over another, but any comment on this now that the federal funding has come through?

Thanks a lot,

Vera Bergengruen
