Subject: DOT Stuff

FYI – draft numbers:

Tare Allowance: \$2.5M

DNR: BEA says \$3.4M, but DNR had \$3.3M budgeted.

Ag: BEA says \$892k, but Ag had \$860k budgeted.

These all assume full fiscal year effects.

Please share w/DOT folks. BEA won't officially score and give us a letter until we give them language, so in a perfect world, we'd talk to DOT again sometime today about that, pick an option and a distribution mechanism for those funds, and then get BEA language tonightish, so they could get us a letter tomorrow.

Thanks.

CLS
