Dear Governor Nikki Haley:

Please address the real issue that is ISIS not gun control. I find it interesting that those that speak the loudest of gun control usually have a body guard or guards to protect them and their love ones.

In the three hours that the terrorist had to shoot his victims, he could have been using a revolver and done the same damage. Politicians should know the existing laws before they ask for new ones. Fact: if you purchase a gun on the internet it can only be shipped to a person that has a federal firearms license. He then performs the back round check before the gun can be transferred to you. Fact: the AR15 is a semi automatic rifle like many other rifles. It is not a fully automatic weapon. Is anyone asking how this individual could be working in the security field contracted by Homeland Security and be licensed to carry a firearm after being investigated by the FBI?

Sincerely,
