Subject: Unbelievable! Now, SpeedTree has been awarded an Emmy, too

Nikki,

I doubt I'll have to email you again on this company receiving another major award – what's left? a Tony or Golden Globe??

But, nonetheless – IDV/SpeedTree (Lexington) is at it again and has been awarded an Emmy! I wanted you to be in the loop – see below:

Press release:

I definitely don't want to overreach, but do you think it would be appropriate to offer some recognition since it's a very different award (even though arguably, it's equally as well-known).

My sincere thanks – I hope all is well your way,  
Phil
