Becky Finch For anyone who is unaware.... I watched a documentary the other night and it was about how many great white sharks they found feeding off of whale blubber right off the coast of South Carolina!!!! There were hundreds of them!!! Don't let your children go in that water!!! This was only a week or so ago!!! Fact check if you want to!!! It is very real!!! I love Myrtle Bch. But me nor my kids will be goin in the ocean!!! Play on the beach and swim in the pools!!!!!! 🐾

Tiffany Graves Page Reid, we've successfully booked Kings Mountain, Aiken, and Little Pee Dee. Also, Poinsett usually has spots open.

Aaron Bryant If anyone is planning on going to Devils Fork State Park/Lake Jocassee on a nice day anytime soon, the reservation system for parking spaces continues to be a huge annoyance. My family and I live in the Upstate, have bought yearly park passes for the past 15 years, and currently have the All-Park Passport. How is it fair to those who spend the \$99 for a yearly pass (which they recently doubled the price of, btw) to be required to spend AN ADDITIONAL \$50 to 'reserve' a parking place for my car & boat trailer? I could understand charging that much for a non park pass holder, but it sure stings to have to pay the additional \$50 after purchasing the yearly park pass! It used to be a first come, first served situation, which was fine. AT THE VERY LEAST, you should make these reservations much more reasonably priced for season pass holders - either something like \$5-10, or free. It is UNFAIR for season pass holders to have to pay another 50% of what they paid for the pass in the first place just to be able to enjoy the lake for one day!

Patti Uhlman Wolfe Page Reid We usually book in January for the season. This year with camping more popular because of Covid we booked everything in December and found it difficult already
