Katherine, I hope your week is going well. Attached is an interesting concept from a constituent about the harvesting of rhinoceros horns. Is this something Commerce should take a look at? Could you get this information to them for me?

Sincerely,

Kevin

I have attached a rough write up of what I am proposing and how I envision proceeding. I have worked on rural economic development in the past and know very well that initial proposals never survive contact with state regulators, federal officials and the market place.
