Mrs. Nikki R. Haley  
Governor of S.C.  
1205 Pendleton St.  
Columbia, S.C. 29201

Dear Governor Haley,

I would like to get your attention on me curing my diseases with medical marijuana? Yes! All the facts I've shared with your office is coming true with Israeli studies. I would like for you to peruse my letter to your office on 02/22/14. I have many friends that have diseases that would be cured with medical marijuana. The facts are there if you would pay attention and give us a chance to create small business and job opportunities for our Citizens! USC could be a catalyst in the curing of diseases with buds and seeds from the marijuana plant. Whole plant curing is the best and proven by Government!

A response to my letter(s) would be appreciated? The FACTS are their for you to see; Citizens need you to answer our call for open hearing and creation of Environmental Friendly products that have no chemicals or poisons that kill Mother Earth.

HEMP FOR MOTHER EARTH....COMMON SENSE,  
INSIGHT, IMAGINATION, INGENUITY, INNOVATION &  
INTEGRITY!

Sincerely,  
  
Ricky L. Loftin

**Homeless and Jobless (803) 771-4308**

**Governor Nikki Haley**

**God's Remedy to Medical Needs**

**Dear Governor,**

**Why will no Politician help a voting CITIZEN with written answers concerning using Medical Marijuana/Cannabis/Cannabinoids to CURE my diseases? I've given endless facts on medical marijuana for the past five years but you will not answer! Prakash Nagarkatti (University of South Carolina) is really destroying God's greatest seed/plant gift to enhance profits for Big Corporations.**

**I would like to conduct a study on myself using buds, seeds and oils? This study could be accomplished with help from Government Patent, Political leaders and University of South Carolina's help. All studies would be a first with me having a job that enhances my body and health. God's greatest seed/plant gift to the planet works; if, we do things naturally. Maybe not the Fountain of Youth but a reasonable facsimile.**

**A GRANT from Government and donation would support me while using University of South Carolina Incubator Research Center. The facilities at U.S.C. for working out, swimming and etc...would give positive factors in a complete CURE for my body. We need a 20 to 30 year study on this 59 year young body? Curing my diseases would be a FIRST without the harmful effects of additives in today's Big Pharm drugs. Innovation in creating new healthy measure in medical field will be a winning situation for our Citizens.**

**Yes! The choice is yours' to make; whether you contribute to making me healthy or doing an injustice to God's most useful**

**plant by refusing positive FACTS for ENVIRONMENTAL GREEN MEDICAL/AGRICULTURAL/MANUFACTURING REVOLUTION.**

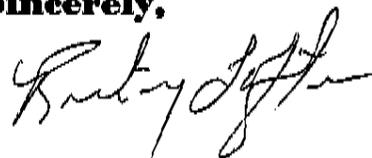

**What will it hurt to consider a Citizens request for CURING diseases using my mind and body? COMMON SENSE, INSIGHT, IMAGINATION & INGENUTIY will prevail for Citizens of South Carolina with Politicians getting educated to FACTS instead of lies and deceit by Corporations.**

**Medical Marijuana would CURE: Ringing in Ears, Bald Head, Stomach Problems, Migraine Headaches, Hep C, Cholesterol, Spinal, Blood Pressure, Skin Dryness & Texture, Shaking/Spasms, Memory, hearing loss and Natural Viagra: chasing women 30 year olds' and being vigorous 22 once again.**

**Let's immolate Mayor Benjamin's City of Ideas with Innovated South Carolina Citizens creating small businesses that's homegrown and manufactured. We stand to lose much with service industry only jobs!!!**

**Thanks for your time.....I'm giving Gerri a bunch of facts and hope you tour Canada's hemp fields and production lines while touring their Country??????? Canada sends 1 Billion in exported hemp to U.S. each year!!!**

**Sincerely,**

I wrote this letter to Roger Goodell, Carl Eller, and Players Union: Three weeks later he announced NFL would use medical Marijuana for football injuries.....2 weeks later he announced 16 \$300,000.00 GRANTS for the study.....Roche Research Lab is sitting empty in Florence, S.C.....Washington just approved PTSD using Medical Marijuana Monday and gave contract to U of Arizona while getting Marijuana from Ole Miss!!!!

"Effective leadership is not about making speeches or being liked; leadership is defined by results not attributes."

— Peter Drucker

The Citizens of South Carolina need OUR help in getting positive information out to deflect the lies and deceit by Big Corporations! Hemp for Mother Earth has been trying since 2005 without much help.....Sierra Club and other's shun God's answer to environmental problems.....COMMON SENSE, INSIGHT, IMAGINATION & INGENUITY TOO will lead OUR Citizens to homegrown and manufacturing jobs while bringing good nourishment to our bodies with small farms and small businesses thriving.

Ricky Len Loftin                      11-19-13

N.F.L. Commissioner  
Roger Goodell  
345 Park Ave.  
New York, N.Y. 10065

Dear Mr. Goodell,

I would like to offer an option on CURING head damage and other football injuries! Yes! This substance has been used for years until greedy corporations made it illegal (in most states) to protect their BILLIONS in 1937?

Will you give your help promoting Hemp for Mother Earth CURING environmental and medical blights for OUR Citizens?

Using Cannabis/Cannabinoids/Oil/Marijuana to CURE football injuries will be innovative and set Medical Marijuana in limelight once again! The use of Cannabinoids

CURED CANCER and other diseases in 1974 but all studies were ordered destroyed to protect Big Pharm (Rockefeller). Spain, Britain & Israel are leading in Hemp/Cannabis Studies that deal with: Head Injuries, Cancer, Epilepsy, diabetes, blood disorders and other diseases.

I'm unemployed and need a job that promotes/protects Mother Earth and all inhabitants. I'm a firm believer that: COMMON SENSE, INSIGHT, IMAGINATION & INGENUITY TOO will lead to restoring Mother Earth while curing diseases with Hemp/Cannabis. What do we have to lose by giving GOD'S MOST USEFUL PLANT TO OUR PLANET a chance to CURE our Ill's?

The N.F.L. could make a decisive impact on getting Medical Marijuana on the map for curing problems! When have you looked at a DRUG COMMERCIAL on T.V. that did not spend 12 seconds explaining the complication/reactions of using said DRUG? I want to be CURED of MY Diseases with Cannabis and not treated for the rest of my life!!!!!!

Bringing Hemp into a better light will create new products that don't have chemicals and poisons in manufacturing. I would like to make the hemp plastic for all car manufacturing at a spot in Natchez, Mississippi! All cars will use hemp: cloth, cardboard, plastic and carpet by 2016! Lotus is all Hemp automobile right now (henryford1941hempcar.com). All building products from hemp would be mold proof: wallboard, lumber, furniture and etc.... Why not put Citizens to work with homegrown and manufactured jobs with hemp; which grows as much pulp twice a year in South as pine trees take six (6) to ten (10) years to produce on same acre of land. This pulp is 20% better than pine tree pulp and don't need chemicals and poisons to manufacture products??????

Have ideas but need N.F.L.'s help to implement action. The CURE to your problems in Cannabis!! Help me put God's Plant back into action for Mother Earth????

11-17-11

Mr. A. Marvin Quattlebaum  
Poinsett Plaza Suite 900  
104 South Main Street  
Greenville, South Carolina 29601-2122

Dear Mr. Quattlebaum,

The article in The State Newspaper (11-16-11) created an avenue to make a dream of mine come true! The COMMON SENSE, INSIGHT, IMAGINATION & INGENUITY of young minds working on a project that will change the context of manufacturing while leading research in ozone, ground, water and air refurbishment. COMMERCIAL HEMP PRODUCTION!

Let's create a study (my ideas) and get these young minds working on FACTS that will expand the legal issues that stand in the way of COMMERCIAL HEMP PRODUCTION. This positive Small Business developing Plant will bring Billions to South Carolina in new taxes.

HEMP IS NOT MARIJUANA!!

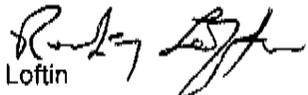

Getting FACTUAL DATA on positive factors of HEMP on South Carolina Economic Development for the next hundred years; while grown and manufactured by our Citizens will let all Politicians know the TRUTH!

Doing away with dirty FIBERGLASS and WALLBOARD will create jobs while protecting our environment and making these products cheaper is the first things on my list. I need help in setting up HEMP FOR MOTHER EARTH? Yes! I do believe this Plant will make Trillions using American Ingenuity! (HEMP; FIRST BILLION DOLLAR CROP POPULAR MECHANICS 1941) This is a project that may change history, be the next Bull Market on Wall Street and your class took the bull by the horns to right an injustice handed down in 1937! Oh! Hemp is imported to United States in the Billions and manufacturing (California) is in the Hundred's of Millions for Hemp Products! Better return than Solar Panels and proven investment!

Let's get Clean Hemp Plastic going with Government Grants Contract to make most of the products used in Tesla, Ficker and Proterra Electric Car/Bus manufacturing. Citizens of South Carolina could grow and manufacture all products from Hemp Plant! (Hemp Plastic: 10 times stronger than steel Popular Science 1940) Henry Ford's idea was to build and run his cars off the hemp plant. Great Video of beating Ford's Hemp Car with sledge hammer today and not being able to dent the car. Ford and others' are using Hemp Panels in their cars now!

I'm asking for help to really make a difference in our World and State Economy! If you read through my letter(s) (arriving soon) you'll see the potential of this request. DON'T LET SOUTH CAROLINA CITIZENS CONTINUE TO SUCK HIND TIT ON A BOAR HOG! Good ideas need to be investigated and debated with an open mind especially when it'll make everyday used products better, cheaper and by our STATE Citizens.

Sincerely,

  
Ricky L. Loftin

**[hempformotherearth@yahoo.com](mailto:hempformotherearth@yahoo.com)**

**Mr. Hugh Weathers**

**Agriculture Commissioner of S.C.**

**Dear Mr. Weathers,**

**I would like to get your attention on the Billions of Dollars in agriculture to manufacturing that would produce large amounts of tax dollars for our schools and roads. Would you consider a meeting with Senator, Katrina Shealy, Cathy Shannon (Shannon Heating & Air – Lone Star Shannon Farms), myself and you to discuss the possibilities of making South Carolina the environmental friendly STATE by using all biodegradable, poison and chemical free products. Creating small businesses and jobs for our Citizens using South Carolina soil with God's most useful seed/plant to OUR Planet! Sending and hand delivering positive information to your office since 2008.....Got hemp legal in S.C. too.....**

**POSITIVE ANYTHING IS BETTER THAN NEGATIVE NOTHING.**

**ELBERT HUBBARD.**

**Sincerely yours,**

**Ricky L. Loftin**
