

Aloha from Hawaii and Congrats! on your win to the Governorship of your State!

This was the first election cycle I ENJOYED in many a moon! (I am 70 years old, a recent widow and a political junkie.)

You republicans have been granted a HUGE mandate from Conservatives like me as well as probably first-time voters that you need to cultivate by helping to STOP the Obama agenda; as for these "low-information" voters, you were most likely the "other guy" that they voted for because they, too, are unhappy with the direction our country is going.

In my humble opinion, you were NOT elected to "work with" democrats. You were elected to help the Senators and Congressmen from your state to STOP the Ship of State so that it can be turned around.

Please help your national republican counterparts to consider these points:

- Off-shore investment: Bring It Home by encouraging them to pass a 2-page bill to incorporate a 5-year moratorium on the Corporate Income Tax
- Keystone Pipeline: Encourage them to get this going in a short 2 or 3 page bill--open Federal lands for oil and gas exploration and drilling
- Federal Buildings and Land: Encourage them to SELL extra Federal Lands and Buildings. The mismanagement by the department of forestry is the reason we keep having these horrendous forest fires in our western states. Open this land to folks to gather downed trees and brush for their fireplaces. Remember the song: "This Land is Your Land, This Land is My Land, etc."
- Amnesty: Encourage them to close the border with fencing and National Guard. Tell them to put the border stations AT THE BORDER so folks trying to get onto our land can be turned BACK before they set foot on our precious soil and the illegals have a chance to spread to YOUR state!

Repeal the Anchor Baby amendment.

Encourage them that with each bill they send to the president's desk, to include a letter to him explaining the bill and give statistics on the amount of support they have from the American people! Polling websites are easy to set up! Encourage them to create one that We The People can easily stay in touch with them all.

You republicans have only ONE GOOD YEAR to do these things. The end of 2015 and into 2016 will be Presidential Season and y'all know what that will mean. (By the way, I support Ben Carson—see enclosed. Make a copy of it and share with your colleagues.)

ENCOURAGE THEM TO PLEASE NOT BICKER AMONGST THEMSELVES. To put up a united front and Bring Back the Greatness of America!
