When leadership was needed, leadership was found. In response to one of the costliest natural disaster to ever visit our state, Governor Haley turned to her cabinet agencies and directed them to respond together as Team SC. And respond they did. Even the harshest critics of the SCDOT were blown away by their phenomenal response to the unprecedented damage to our state's highway network. Christie Hall has certainly earned the top spot at SCDOT and I congratulate Governor Haley on selecting her to be the next SC Secretary of Transportation.
