Subject: Project Emu: PTG Holroyd Precision grand opening

Pete and Moe,

I've connected the dots on Holroyd, Project Emu. \$11.5 Million and 20 Jobs at the Corporate Center, Spartanburg.

As you both are now aware Holroyd wants to have a grand opening in September. For the Department of Commerce to officially participate Moe Brown will need some more details to make the request.

The basics are a good place to start.

Date/Time 9/19-9/29

Address 130 Corporate Drive,Spartanburg

Attendees -the corporate owners from China(-it takes them 2 months to get permission to leave China)

Primary Contact/Organizer of Event Peter Weisman Architect/developer on behalf of Holroyd

I know that some of this is up in the air. But we've got to start somewhere.

Regards,

Kyle A. Sox
