---

Mike,  
Just left you a voicemail. We just got a copy of the Sheheen, Davis, Massey amendment and wanted to discuss a couple of things with you, namely the language dealing with deficits and the transitional retirement/EIP section. We are assuming the deficit language is still a work in progress as it doesn't take into account some of the issues we discussed with you and Paula last week. We are also assuming the retirement/EIP section is a placeholder until the working group comes back with its final language hopefully very soon.

Let me know. Thanks.
