Subject: FW: I believe plate

The I believe plate will be a regular issue plate. We will use a 5digit numeric, 1 Alpha series format.

We will start with 10001A. When all of the A series has been exhausted, we will move to B and so on through the alphabet.

The plate class will be BEL

Can you please have more sample plates made up with this text string, so we can sign the proper version for production approval.

If we need to redo the electronic proof first, that's fine too. I'll be out of the office tomorrow, so if you send me the updated proof today I'll get it back to you. Otherwise it will be Monday.
