Subject: Regualtions on veterinary emergency facility fees

---

Dear Sir or Madam,

Hello,  
I am hoping you can help with this or tell me who I can get in touch with because something needs to be done.....The veterinary emergency medical facilities, the one I am mainly speaking of is Charleston Veterinary Referral Center, play on people's emotions, and people have no choice but to pay whatever ridiculous fee they charge when it comes to the life or death of their pet....IT IS AWFUL!!!! There needs to be regulations on the amount of money these places can charge.....They obviously have no consciences and are sleeping well at night in their lairs.....I have had two terrible experiences there when I took two of our dogs and they were no better when I picked them up than when I took them...AFTER A TOTAL OF \$3000.00 LATER, and now we have a friend of ours that took their dog there after being bitten by a snake, the dog died and they are still being charged with a bill of almost \$10,000.00!!!!!!!!!!!!!!!!!!!!!!!!!!!!!! What can be done to get this craziness stopped, and get some regulations on the amount of money they can charge people?? THIS IS THE EQUIVALENT OF PRICE GOUGING and I and I am ready to fight to get this changed...Please let me know if you can help or tell me who would regulate this.....

Thank you for your time,

Kelly Burris
