**John Mcfaddenjr** How about telling us just how many parks there is in South Carolina. Then pehaps you could list one per county each day until you list all of them for us. Of course the administrator or whoever is doing the post would have to be an exceptional person to do this. A good worker in their field.

**Karen White** John, if you go to [www.southcarolinaparks.com](http://www.southcarolinaparks.com) and click on Park finder you will note that there ARE 46 parks listed on the map for South Carolina. You may then click on a park name and learn what ever you would like about each park. I think the purpose of the website is to showcase the park and the purpose of facebook is to just touch base and let us know they are there for you and I to enjoy! Hope this helps you out! :)

**John Mcfaddenjr** First of all thanks. Then the idea behind posting one post about a different park each day would be for the benefit of the population of South Carolina as well as those other people who are not in South Carolina but share your web site on facebook. The old saying is "outta sight, outta mind." If you post it they will come! Or atleast they will see!
