Subject: Individual Income Tax Filers, by Tax Bracket

Attachments: [Gov Haley 12 05 2012.pdf](#)

---

Meredith,

If you look at page 2 of the attachment, they present data on the number of anticipated filers (of individual income taxes), by income range, which is generally in \$5k or \$10k intervals. I'm looking for the same data by income tax bracket (no net liability, 0%, 3%, etc.) instead of by income range. Do you have that on hand? If not a guess for 2013, a recent year would be fine...but ideally, I need it this morning, if that's possible. Thanks. Sorry for the short notice.

CLS
