Historical Revision Deseccration Must Stop

AVNetnews – Historical revision under the color of racism, while deseccration our national history poses a threat to our nations future. "Those who do not learn from history are bound to repeat it." The modus operandi of deseccrating our national historical sites shortly before the Charlottesville events smell all to much of Soros modus operandi, who has invested his dirty money into the downfall of the United States government.

Further outrage is demonstrated on thousands of blogs by WTP who are muzzled by MSM fake news censorship. No formal polls are necessary to read the outrage of those who have had enough of Democratic Party subversion.

Whether or not we approve of slavery, we need to look at the facts. An ironic character comparison is Robert E. Lee and General William Sherman... or were they in their safe space with their puppy during their history class?

An accurate historical record aside from any moral condescending arrogance of the left and right is vital if we intend to learn from history. A trophy is Alice Miller's "For Your Own Good" – a research project on Adolph Hitler's upbringing which led to the psychopathic rampage through WWII. Miller could have never arrived at those profound insights had she engaged in the same violent lawless anarchy our President Trump condemned... after speaking with knowledge and thoughtfulness; unlike the left who many say engage in treason... Or have we forgot we stare down the barrel of a nuclear war??
