Just when you thought it couldn't get any worse. It has.

Babies born alive - with beating hearts - are killed and dissected with scissors.
Does that sound familiar? Notorious abortionist Kermit Gosnell, convicted of murder, used scissors to kill his newborn victims, too.
This is pure evil, T.. And Planned Parenthood knows it.
That's why they have ignored questions about their illegal trafficking in baby organs. For weeks, Planned Parenthood has had no substantial response to its own employees caught on tape:

- * Talking about a "17 weeker" who will yield a good harvest of organs
- * Saying "If we alter our process, we are able to obtain intact fetal cadavers"
- * Hagglng over the price of body parts and discussing "splitting up" live children into pieces as "a matter of line items"

Planned Parenthood is not backing down from their atrocious actions. In fact, they are doubling down and attacking the pro-life Senators who voted to defund them.
Politico reported this week that Planned Parenthood is spending hundreds of thousands of dollars on a divisive attack ad campaign.
But, as you know that's just a drop in the bucket for America's largest abortion provider - which receives a whopping \$1.5 million of our hard-earned taxpayer dollars PER DAY.
Despite the gruesome videos exposing unspeakable horrors, Planned Parenthood is desperately fighting back. They're clinging to the half-billion dollars of taxpayer funding that fattens their bottom line.
They want to distract from the fact that their abortionists have been caught breaking federal law - altering the abortion procedure to strategically "crush" the baby to yield a better organ harvest and even delivering infants whose hearts are still beating before they are dissected.
That's not a non-profit. That's not health care. That's a scene from a horror movie.
Planned Parenthood has a virtually unlimited war chest that is partially bankrolled by our tax dollars. We must end the profit-driven atrocities being committed in the name of "choice" by Planned Parenthood and we must end the scourge of late-term abortion while continuing to work to protect
