**Subject:** Re: Dorchester county solicitation.

Again,

I would like to see n investigation of the bonding system in Dorchester county. Case records search will show that one individual does a majority of all the bonds. Every surety company registered with the Sate of south Carolina loses income because of this.

A very good start is the weekend Bond court. Courthouse guards do not go onto the second floor to observe bondsman soliciting in court.

St George booking advises a bondsman of people who are booked. Easy !

Ask the cosigner of bonds who contacted them.

I have even been told of a bonds man labeling his phone as law enforcement when calling family members.

With Dorchester asking everyone for more tax money then everyone should have equal rights on Demming way.

It IS not my responsibility to provide evidence .. This is why we pay State investigators and Law enforcement.

I invite anyone to attend Deming way bond meeting weekend are the best .. You will not see me soliciting there , as the Deming way Bondsman has enough influence to direct court house guards to turn a blind eye. to his business.

Who put the desk on the second floor for a Bondsman?

Remember if you work for the State or the county you do not own these facilities. The law in the courthouse should apply fairly to all.

Thanks

I and others have complained about the bond system in Dorchester county. I am tired of being intimidated by court house guards.  
I am tired of one single bondsman writing all bonds , soliciting the courthouse , and getting information from st George jail guards..  
we can check judicial records and monitor which bonds man solicit on Dorchester county property.  
Sometimes people who turn evidence in are given a free pass ... We have see this before in federal cases.

To me it seems to be a good time with the justice department in town. I have made repeated complaints,, Please Do not ask me to supply concrete evidence when I report a violation of state codes. Again we can research judicial records.

No one seems to take this seriously.. in the mean time I feel other bondsman and Sureties are being discriminated from doing an honest business in Dorchester county.
