Re: Malcolm Jeffcoat

SCDC# 261600

This is a request from the families of Malcolm and Marilyn Jeffcoat. Marilyn his wife has been diagnosed with stage 4 lung cancer. She has one son and has been estranged for many years. She has no one to take care of her while fighting this disease. Marilyn needs her husband home to be her caregiver. I can get medical records or a letter from her doctor. We all believe in Malcolm's innocence 100%.

All I can say about the court case is that my husband attended each day and was shocked by the jury's decision. Malcolm could not be identified as the perpetrator. Also, he was poorly represented by his attorney.

Malcolm is scheduled to be released in 2016 but is needed now at home. We would like for him to be released in 2015. He has served the time for something he did not do.

We are asking for prayers and serious consideration for his release. I'm confident this can be accomplished somehow, someday.

Sincerely

*Brenda Prevatte*
